# THE AIM OF INNOVATION
## IS TO CREATE VALUE IN EVERY AREA OF LIFE

At metaloBox®, we firmly believe that the final quality that is felt and appreciated by our customers depends on the finer details of our products, and on their durability and practicality. It is important that we innovate not for its own sake, but to bring benefits to our customers and to help improve the quality of life among those who use our products day by day.

This catalogue is the result of many years' development work, and provides an overview of the products we recommend/supply to swimming pools and fitness centres. Our aim is to enable you, with the help of our lockers and accessories, to arrange comfortable, attractive and practical changing rooms that will give your clients and workers greater satisfaction and contribute to the success of your business. Lockers from metaloBox® have a competitive price-quality ratio, and bring you a professional solution for changing rooms that are cultured and comfortable.

**Peter Major**
managing director

**Ferencváros Sport Club**
**FTC Népliget Sports Ground**
Budapest
Viktor Paján
– Népliget Facility Manager

"The old, worn-out lockers in the changing rooms of our facility in Népliget were replaced with brand new metaloBox® lockers. The green doors really enhance the atmosphere in the changing rooms, and match the image of Ferencváros football club. People doing sport here can now use changing rooms that are more comfortable, organised and hygienic. We're extremely satisfied with the end result."

# "Z"-DOOR LOCKERS

**Material:** grade I steel sheets **Basic colour:** RAL 7035 / light grey **Painting:** electrostatic powder coating

## PROJECT Z6 NEW

The most popular lockers among our clients. I recommend them to partners who have to fit a lot of guests **into limited changing room space.** The lockers are strong and good-looking, and can even hold long coats in winter.

**Krisztina Daróczi – Sales Representative**

## BASIC FITTINGS

- security lock (with two keys)
- rod for hanging clothes
- ventilation gills in doors
- name card holder
- 120 mm feet

## OPTIONAL EXTRA FITTINGS:

LOCK WITH MASTER KEY: (see page 29)

COLOUR DOORS: (see page 35)

BENCH SEAT: OSP PR NEWZ6 (see page 17)

FOOTFRAME: LK G PR NEWZ6 (see page 26)

**AquaPark**
Petroland
Stanislav Štefanik – CEO

"I strongly recommend metaloBox® to everyone, and I'd like to take the opportunity to thank the company for their cooperation in the purchase, delivery and installation of the lockers. The products we ordered arrived with no problem at the agreed time, and when we were making our choice they recommended the lockers that were right for our needs. They also found out the best way of using the available space, and we could check it with the drawings they made in advance. We have found a reliable, professional partner in metaloBox®."

# SHORT DOOR LOCKERS

If the corridor is so short of space that even the "Z"-door lockers don't fit, I would recommend this solution to our partners. I'd suggest this type of locker **if the guests don't have too much with them**, and they don't need to keep bulky objects like long coats and big bags in their lockers.

**Krisztina Dombai – Sales Representative**

**Green-Fitness**
Budapest
Tünde Anna Kiss
– Head of Reception

"In the changing room of a fitness centre, guests find three things important: security, cleanness and aesthetics. We chose metaloBox® lockers because they perfectly meet all three requirements. They are also practical, because our guests can choose the locker they want, and don't have to accept what the reception or a computer tells them to use. From a business point of view it was a good decision, because their price-quality ratio is the best. If our company is successful in the long term, we chose well in choosing metaloBox® lockers, but if we fail, we can sell them easily, because they keep their value."

# SITTING-BENCH LOCKERS

PROJECT 4

OSP PR
4-4/8-3FF

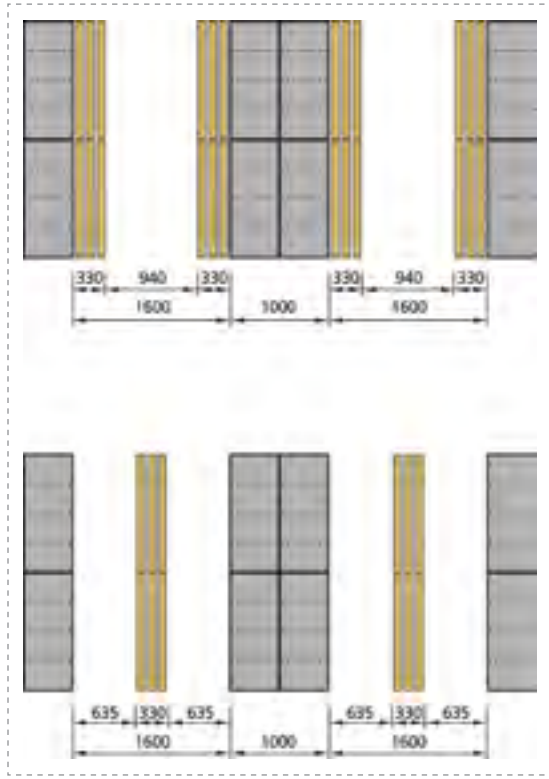

Please call us for the complete range of models!

Benches fitted beneath the lockers are a great solution for hygiene and cleanliness. The guests will appreciate **always having a place to sit** and get changed in comfort. Cleaning under the lockers is really easy.

**Davor Varošanec – Sales Manager**

## MAY BE ORDERED FOR LOCKERS!

Lockers fitted with benches offer a space-saving solution, leaving more room between the lockers for getting changed and moving around.

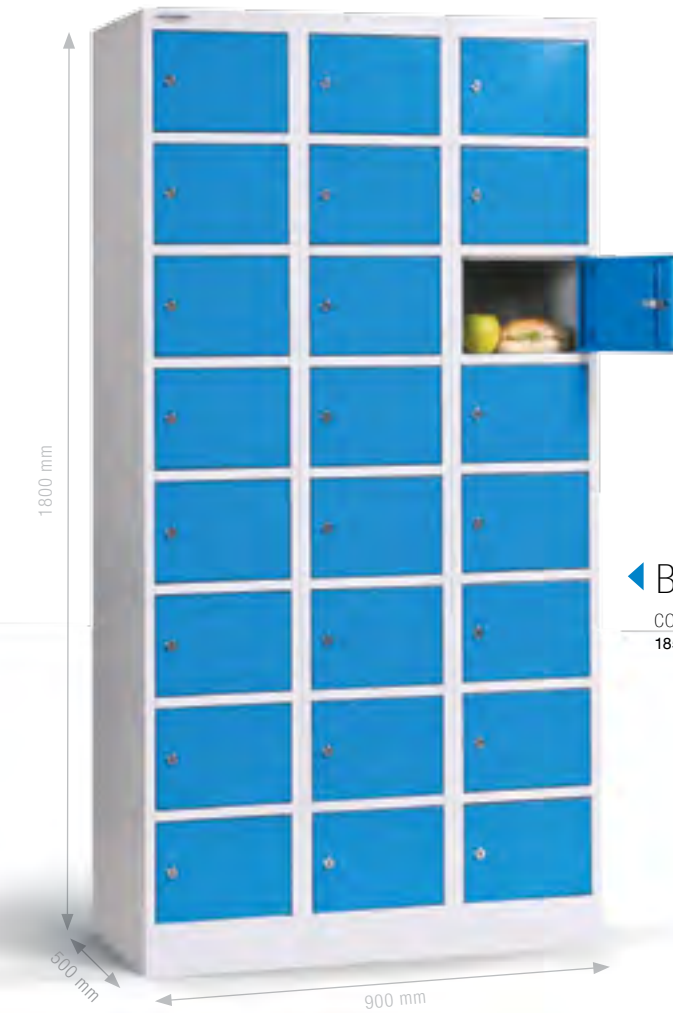

Handbag, a change of shoes, a mobile phone? Keep them safe in metaloBox® small-compartment valuables lockers. Lock them away in easy-to-clean, practically sized compartments, where everyone can find their stuff – and the lockers don't take up much room, so you're sure to have space for them somewhere.

## BOX 3/30

# VALUABLES LOCKERS

## BASIC FITTINGS

- security lock (with two keys)
- easy to clean rim-free shelves
- reinforced doors

## BOX 5/25

These locker units, each with 25 compartments, can be mounted next to each other, one above the other, along the length of a wall, to create a valuables storage system which looks good and which can be as large as required, and even expanded at a later date with additional units. This solution is simple and practical, and extremely cost effective in the long term, as it encourages users not to lose their keys.

**Material:** grade I steel sheets **Basic colour:** RAL 7035 / light grey **Painting:** electrostatic powder coating

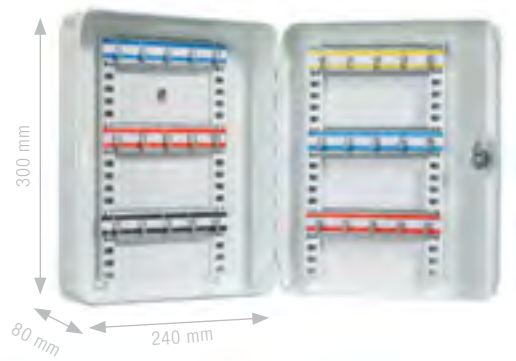

# KEY CUPBOARD

For the storage of spare keys in a single-door design, with spaces for 30-200. The coloured indicators and documentation ease orientation among the keys.

## NO NEED TO WASTE MORE TIME!

**Cseri Kft. Gyémánt Baths**
Tatabánya
Szilvia Újvári – former CEO

"The majority of our guests are families with children, who find it easiest to use a key. We're often asked for a family to be given lockers close to each other, and not far from the changing cabin if possible. The metaloBox® key system took a lot of trouble off our shoulders which we couldn't solve with electronic lockers. The master key system meets all our needs. It's easy to handle, even during the busiest times, and our customer feedback proves that the system works."

# THE MASTER KEY SYSTEM WORKS FOR US!

# MASTER KEY SYSTEM LOCKS

The guest get 1 key for their own compartment
**– YOU GET 1 KEY WHICH OPENS ALL!**

## SAFE
Hardened steel tongue, Our key registration guarantees that no two locks in your changing room will have the same key!

## EASY TO INSPECT
With the master key you can inspect the contents of the lockers any time!

## QUICK AND EASY LOCK REPLACEMENT
No need to drill the lock or force the door open if a key gets lost.

## SECURITY LOCK WITH TWO KEYS

## 10 000 LOCK COMBINATIONS

# GIFT!

## KEY REGISTRATION:
ensures that one key cannot open more than one locker compartment

## ONE MASTER KEY:

# CHANGING ROOM LOCKERS WITH ENTRY SYSTEM

GELLÉRT

**Saint Gellért Medicinal Spa and Baths**
Budapest
Eszter Kanizsai – Manager

"We bought lockers from metaloBox® for the Saint Gellért Medicinal Baths. When selecting the type of locker, it was important to bear in mind that the baths are a listed monument, so the lockers had to match the style while fulfilling modern requirements. We launched a new entry system into the baths, and had to install new locks to go with this system. When they enter, every guest gets a wristwatch that they can use for their selected cabin or locker, and for other services too, even those which require an appointment or a specialist. The lockers were delivered smoothly and quickly, and on time. They are beautiful and practical, and they function well."

Nowadays, there is increasing demand to install entry systems in spa baths and swimming pools. Our company has the experience and technical solutions to adapt our lockers to the entry systems that are in wide use in Hungary.

# HOW TO USE THEM

Guests can use the wristwatch to enter the facility. They can also open their lockers with the same wristwatch. With the wristwatch, operations are simple, because there are no keys that need to be recorded or that might go missing, which would mean forcing the locker open. The great benefit of this system is that special rights can be allocated to each wristwatch, allowing the wearer to use individual services.

# COIN-OPERATED LOCKS

## Z EUROL COIN

FEATURES:

- master key for the locks
- impossible to open unnoticed (user-friendly)
- no lockers are permanently reserved
- compatible with all types of metaloBox® changing room lockers, as well as BOX 3/12, 3/15 and 3/21 valuables lockers

# ELECTRONIC LOCK

## Z EUROL ELECTRO

FEATURES:

- easy to handle for users and operators
- the most modern development in electronic locks
- can be used without keys
- compatible with every type of metaloBox® changing room locker, as well as the BOX 3/12 and 3/15 valuables lockers
- in addition to the master code, can also be opened using a mechanical master key

# SPECIAL HANGER SYSTEM

**Material:** class 1 plastic / polypropylene

**Dimensions:**

**hanger:** 590 x 410 x 140 mm
**box:** 110 x 390 x 125 mm
**net:** 160 x 300 mm
(length x width x depth)

Our high-quality locker-hanger system offers an outstanding solution for changing rooms in swimming pools, spa baths, fitness centres and other sports facilities. With the help of these hangers, you can store things safely and tidily even in places where lockers won't fit. The supplementary net and box ensure perfect organisation. The hangers are also available as extra accessories for metaloBox® lockers, guaranteeing supreme convenience for your guests.

metaloBox® lockers can also be ordered with coloured doors. The cupboard body stays grey, but the bright coloured doors create a special atmosphere in your changing rooms. All members of the PROJECT locker range can be ordered with coloured doors. When purchasing coloured doors, be sure to ask for a personal quotation! We will also help you to choose the right colours!

The colours shown in the catalogue are for illustration only as they may differ slightly from the actual colour as a result of the printing process.

**Gilda Max Fitness**
Budapest
Alexandra Béres
– Professional Director

"We bought metaloBox® lockers for the fitness centre we opened previously. We were satisfied with the company's prices and services, so we turned to them again. As opposed to our first order, we wanted something of a completely unique colour and material, chosen by our interior designer to match the atmosphere of the centre. I gave my wishes to metaloBox®, and they fulfilled them excellently, and by the deadline."

# LAMINO LOCKERS FROM LAMINATED BOARD

The doors and locker body are made from 18 mm thick board.

Extra-strong, chromium-plated rod.

Edges are glued on in the same shade as the board.

Height-adjustable aluminium feet.

## LAMINO Z4

Do you prefer the warmer feel of wood-effect furniture? Our LAMINO range offers lockers of different sizes, with different compartment arrangements, to suit your tastes. These lockers, made from laminated board, are recommended to partners who want to provide their guests with truly beautiful, comfortable and modern changing rooms. Lift the mood of your locker rooms by ordering some of our fun and lively colour doors, available in many variations. The standard colour options – with no surcharge – can be found on the previous page.

**Basic colour:** locker body is white, and the doors in this picture are cherry

## BASIC FITTINGS

- ventilation gills
- rod for hanging clothes
- security lock (with two keys)
- height-adjustable aluminium feet

**Velence Resort & Spa**
Velence
Eszter Mátraházi – Spa Manager

"We've had connections with metaloBox® since 2007. The lockers we selected are young and trendy, reflecting the tone of the Velence Resort & Spa both with their colours and their design. The lockers are used by guests who come to use the baths or our fitness or recreation services. We are greatly satisfied with the services provided by metaloBox®, the lockers are of excellent quality and the company's workers are extremely helpful."

# MDF LOCKERS FROM MDF BOARD

The doors are made from 16 mm thick MDF (medium density fibreboard) while the locker body is made of 18 mm thick laminated board.

Numbered security locks with extra-long latch.

Rounded, painted edges.

Height-adjustable aluminium feet.

## MDF Z4

Items in the MDF range are made from more homogeneous, more solid board. The locker doors – with many different colours to choose from – and the rounded edges give changing rooms a friendly, homely feel. The body is always white, but the doors are supplied – at no extra charge – in the colour of your choice from the RAL scale. You can order lockers from the MDF range in different shapes and compartment sizes to suit your style and your needs.

**Basic colour:** locker body is white, and the doors in this picture are RAL 4010 magenta

## BASIC FITTINGS

- ventilation gills
- rod for hanging clothes
- security lock (with two keys)
- height-adjustable aluminium feet
- any colour from the RAL scale may be chosen for the doors (at no surcharge)

# DELIVERY

## WHAT IS METALOBOX ON-TIME?

It's quite simple: we deliver when you ask us to. If it's urgent, we can deliver the lockers and fit out your changing rooms in as little as 1-2 days. If your changing area is not yet ready, and you don't want to have new lockers stored in corridors or out in the open, you can count on us to deliver at a time that suits you.

**Like the idea?**
If you like good timing, then you can trust metaloBox®!

Send us a request for a quotation, and our sales colleagues will contact you immediately. They will prepare a personal quotation based on the products selected in the request (with a discount for larger orders), and discuss with you:

- the ideal delivery time for you,
- the most beneficial delivery terms for you,
- and payment terms that suit you.

### DELIVERY WITH NO UNPLEASANT SURPRISES!

We guarantee that our lockers will be delivered to you undamaged, because we transport our lockers in trucks specially built for carrying metal furniture, and our experienced fitters will install them using their expertise.

## WAREHOUSE

The largest warehouse stock in Eastern Europe, with catalogue products kept in stock in a choice of colours and sizes

## DELIVERY

Our experienced and fully trained mB colleagues are a professional team, using specially-built metal furniture delivery vehicles

## FREE, READY-TO-USE INSTALLATION

Delivery includes on-site assembly and installation - free every time!

## SERVICE AND GUARANTEE

A one-year full guarantee (except for locks), guaranteed afterorders, rapid repair service

# ARE YOUR LOCKERS OLD?

## - NOW YOU CAN CHANGE THEM EASILY AND WITH FAVOURABLE TERMS

WE CARRY OUT FREE EVALUATION OF YOUR USED LOCKERS AND DISCOUNT THE VALUE FROM YOUR NEW LOCKERS - AN OFFER YOU CAN'T REFUSE!

For more details please contact us!

**Center Fitness**
Nyíregyháza
Ágnes Horváth – Managing Director

"We opened our new gym in April 2006. For our changing rooms we ordered lockers made with laminated wood and "Z"-doors, to match the colours, shapes and materials used in our fitness studio. 120 people can use the lockers in the men's and women's changing rooms. The lockers look really good, and fit in well with the rest of the centre. For our guests' further comfort, we also bought benches to go in front of the lockers, which are also very practical, good quality, and colour-harmonised with the changing room fittings."

RUDAS

**Rudas Spa and Baths**
Budapest
Péter Rozman – former manager

"In 2009 I contacted metaloBox® about changing our old lockers once more. The men's changing room was adapted to a unisex changing room. More compartments had to be fitted in to a smaller space. The type we chose has plenty of room for the guests' clothes. The lockers were made of lamino board. Their colours and shapes go well with the image of the baths. I'm satisfied with the products and services. Next time there is a purchase, I'll be sure to ask metaloBox® first."

**Team Fitness**
Budapest
Csaba Hulényi – owner

"Team Fitness opened its doors in August 2007. We selected space-saving practical lockers for the separate men's and women's changing rooms. The lockers were ordered with the master key system, so if anyone misplaces their key, we can still open their locker with no problem, and what's more, thanks to metaloBox's key registration service, we can be sure that it's impossible for two guests to have the same key, so nobody can open somebody else's locker. We got all the help we needed during the planning process, with maximum accuracy. Thank you!"

**PARK Fitness Club**
Győr
Csilla Nagy – PE trainer,
aerobics specialist trainer, personal coach

"The PARK Fitness Club is part of a complex offering free-time and beauty services, where high standards are of utmost importance. When we designed our fitness room, some of our main criteria were sophistication, elegance and outstanding quality. It was for such reasons that we chose lockers from metaloBox®. Our members have been using the lockers with great satisfaction since April 2010, and the men and women training in the Aerobics and Spinning room are all very satisfied. Reliability, durability, top quality and guarantee! The company sells outstanding furniture, and offers a wide choice, and friendly team members. I'm happy, just like our guests."

**Palatinus Open-Air Pool and Baths**
Budapest
Péter Rozman – Manager

"We bought the lockers for the Palatinus open-air pool from metaloBox®. For our summer operations, we chose laminated lockers, as you can see in the picture. In summer, visitors don't have too many things with them, so they fit easily into these compartments. The doors are brightly coloured, blending in with the surroundings. The products have fulfilled the hopes we had for them."

PAKSI IPARI PARK

**Paks Health Centre,**
**Spa Baths**

Paks

Dr. Sándor Sztruhár
– Director of Paks Industrial Park Company

"We've worked with metaloBox® for over five years. They also supplied the furniture for our Enterprise Incubator House in 2012. With their great products and the great experience we had working with them, there was no question which company we would ask to supply the changing room furniture for the Spa Baths at the Paks Health Centre. We bought metal "Z"-door lockers with foot plinths, with locks aligned with our electronic entry system. The coloured doors are fun, and the products themselves are practical and long-lasting."

**Gránit Thermal Baths**
Zalakaros
Mihály Krampek – Technical Deputy Director

"In 1998 we were among the first to buy lockers from metaloBox® for changing rooms in the Gránit Thermal Baths. Whenever we have made any renovations in the last 13 years, we've continued to choose metaloBox® lockers. In our reception building, completed in May 2010, we fitted our changing room with metaloBox® lockers, this time with electronic locks. We're content with the quality and standard of the lockers, and the accuracy of delivery and installation."

**Puchner Palace Hotel******
Bikal
Mrs Edit Laufer Jordán
– Director of Sales and Marketing

"Puchner Palace Hotel has a relationship with metaloBox® that goes back several years, so when expanding our bath house we turned to our partner with the greatest trust. We needed lockers that matched our ideas of style, and completely satisfied the needs of our guests. We found our ideal solution with the lockers distributed by metaloBox®, because we are satisfied with their quality and their practical use. They are sure to win the trust of other customers, not just with these values, but also with their flexible delivery and installation services."

LUKÁCS

**Saint Luke**
**Medicinal Baths**
Budapest
Eszter Szaniszló
– Deputy Manager of the Baths

"When we renovated the baths, we also renewed the lockers. We chose the laminated lockers because they were closest to the atmosphere and design of our baths. We went for the "Z"-door option, because they are roomier and you can fit more in them. Thanks to the flexible attitude shown by metaloBox®, we could have everything in the colours we really wanted, so the final result is beautiful and pleasant. The colours radiate warmth and friendship in the changing room. All the way through the project, the company's staff worked helpfully, quickly and hitch-free."

**Gyula Castle Baths**
Gyula
László Attila Boros – CEO

"The Castello Wellness and Sauna park at the Gyula Castle Baths was expanded in 2011, and 204 new lockers were purchased for the development. metaloBox® put together a package that fitted exactly to our changing room capacity, using a combination of several different lockers from their wide range. Our guests are very happy with our high-quality metaloBox® lockers, with their perfectly working individual keys and locks, and our cleaners' work is also quick and easy."

**Csitáry G. Emil**
**Swimming Pool**
**and Open-Air Pool**
Székesfehérvár
Béla Szakáll – Shift Manager

"In the summer of 2010 a public procurement procedure was announced to replace the swimming pool lockers and improve the entry system. The winning bid for the lockers was submitted by metaloBox®, changing the lockers that had been in use for 20 years. The new lockers were installed as we'd planned, so visitors to the pool can now use lockers which are wider, more practical and better to look at. The staff at metaloBox® were ready and willing to use their experience to help us plan and carry out the new changing rooms. If you are a manager of a swimming pool, I recommend them to you without hesitation."

**Sportmax**
Budapest
Attila Czene – Sport Director, Olympic champion

"There are several different sport activities going on side by side in our sport club, and they all operate separately. Our guests change in the central changing rooms, and when we designed them, it was important to have a place where a lot of people can get changed in comfort. The rooms had to be furnished accordingly, with well-placed lockers and benches. Employees of metaloBox® did their maximum to help us in the planning and installation stages. We purchased lockers with master-key locks, so there is no major hassle if a key gets lost, because the master key can be used to open the locker. The burgundy colour of the doors was chosen by our interior designer, and it matches the style of the sport centre's walls a flooring perfectly."
